EDUCATION

IBA Karachi | BBA

Aug 2022 – Jun 2026

Relevant Coursework: Introduction to Statistics, Inferential Statistics, Data Manipulation & Visualization, Analytical Approach to Marketing Decisions, Essential Software (Python).

SKILLS

Programming: Python (Pandas, NumPy, SciPy, Matplotlib, Seaborn), SQL

Data Tools & BI: Power BI, Tableau, Advanced Excel (Macros, Pivot Tables, Power Query), Google Sheets

Analytics Techniques: EDA, Data Cleaning, Data Visualization, Statistical Analysis, Machine Learning, ETL, KPI Monitoring, Business Intelligence, Dashboarding.

PROFESSIONAL EXPERIENCE

Humantek | Sales Executive

Jul 2025 – Aug 2025

- Built an automated CRM dashboard using Google Sheets to monitor real-time sales KPIs across 5+ performance metrics, cutting manual reporting time by 30%.
- Applied analytics and data visualization to refine outreaching, upselling, and cross-selling strategies, increasing lead conversion rates by 10%.
- Presented and pitched tailored service offerings to prospective clients, effectively communicating value propositions across platforms such as Discord, Twitch, Kick, Discord etc.

The Ayat Foundation | Data & Development Intern

Jun 2025 – Aug 2025

- Collected, cleaned, and structured a dataset of 70+ scholarship opportunities for an application development, enabling data-driven guidance for Gilgit Baltistan students.
- Assisted a group of research team in collecting and analysing data on educational accessibility across GB districts and presented actionable insights.
- Tracked donation records during a fundraising campaign for flood-relief operations.

F.G Girls School, Skardu | Volunteer Educator

Jun 2023 – Aug 2023

- Taught 300+ students and tracked monthly learning-outcome KPIs, achieving a 25% improvement in assessment scores over 3 months.
- Organized a 3-day teacher training workshop on instructional techniques and tools for 7+ educators.

PROJECTS

Vendor Performance & Profitability Analysis

- Architected an end-to-end ETL data pipeline using Python to ingest and analyze 15.5M+ records of retail inventory, purchasing, and sales data via memory-efficient chunk processing.
- Developed dynamic KPIs including Gross Profit, Stock Turnover, and Profit Margins; uncovered ~\$659K in locked capital from unsold inventory and validated a 72% unit cost reduction through bulk purchasing optimization.
- Performed rigorous statistical analysis using T-tests to mathematically confirm significant profitability variances between high and low-performing vendor segments.

Employee Attrition Prediction

- Developed Logistic Regression and Decision Tree models in R to predict employee attrition, achieving ROC-AUC ~0.85 on a 1,400+ record HR dataset.
- Performed data cleaning, feature engineering, and EDA to identify top 5 attrition drivers (overtime, job level, tenure).
- Delivered actionable business intelligence recommendations to simulated HR stakeholders, outlining a targeted retention strategy projected to reduce attrition risk by 20%.

CERTIFICATIONS

- Google Data Analytics Professional Certificate — Coursera
- Data Analytics Certificate — Datacamp
- Intermediate SQL — Datacamp
- Intermediate Python — Datacamp
